Options and Accessories

Adiabatic cooling

Options and Accessories

Below is a listing of the main TVC options and accessories. If your required option or accessory is not listed, look no further than your local BAC representative.

Epoxy coating

Increase the coil's resistance against a harsh atmosphere.

Sound reduction

Reducing noise at air **intake and discharge points** brings us closed to silent cooling equipment.

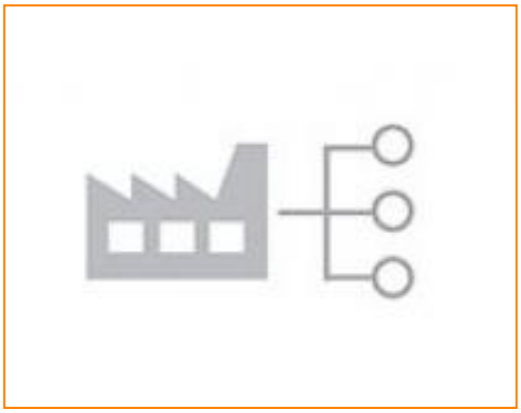

Partitioning panels TVC

Increase the degree of redundancy, providing a higher backup capacity for your installation.

Recirculation pump

The recirculation pump helps to further cut down on water consumption.

BMS supervision

This option integrates the adiabatic cooler's control system in your BMS system.
